The BC0323 Airforce hand dryer is one of the best known hand dryers in the UK. The model is over 14 years old now but was one of the first energy efficient units to hit the market. It provides a pleasurable drying experience with its multiple, concentrated air outlets covering and drying the hands thoroughly.

---

**HDUK expert opinion:** "One of the most recognised hand dryers in the UK. Not the quickest dry on the market but certainly not the slowest, with completely dry hands every use. A very reliable, robust and energy-efficient unit that's easy to install."
