The Wave i01 is the market leader for hands-in dryers in terms of energy efficiency, drying time, noise reduction, accessibility and hygiene control. All the quality and performance you would expect from a global manufacturing leader including a reliability that's second to none. Buying the Mitsubishi Jet Towel Slim blade style "hands in" dryer brings you an exceptionally long life, energy efficient unit with one of the fast drying performances available. It's also bought for its quietness as very little noise transmission, both to the user and the surrounding area, is emitted when in use.

HDUK expert opinion: "The original and some would argue one of the best blade-style units. Low noise as standard yet still delivers one of the best dry times possible with minimal costs to run. Renowned for quality and reliability we haven't had a single unit ever returned to us, and is why we back these with a warranty 2 years longer than the manufacturers standard"

Ideal for these locations or similar:

- Airports; Public attractions; Schools(Primary and Secondary); Colleges/Universities; Cinema/Theatre; Sports Stadiums; Motorway Service Stations; Factories; Food Processing Plants; Shopping Centres; Large Offices; Pubs/Bars; Hotels; Restaurants; Libraries

Product features

- Available in White (Heated), White (Unheated), Silver and Black finish

(Polypropylene ABS cover)

- 2272 dries possible per £1 spent on electricity^ compared to 143 dries per £1 spent on paper towels^^
- Exceptional reliability with one of the lowest failure rates on the market and a lifespan of over 1 million cycles
- Superb hand drying performance in any of the four settings that allow you to choose the speed of airflow and heater element activation.
- Ultra™ brushless digital motor for improved energy efficiency, reduced noise and zero maintenance*. They've been proven to be up to twice as reliable as other leading brands' brushless motors
- Patented Mitsubishi Wave Nozzle Technology™ aerodynamic air chambers for reduced noise and improved drying - One of the quietest, high performing hand dryers available making them suitable for a range of noise sensitive locations
- Safe-air flow to prevent blowback of excess water and air onto the user and surrounding areas
- Easy to wipe clean and empty Excess water hygiene system™ - The water blown off the hands ends up in the Excess Water Pod™ ensuring walls and floors stay dry and water doesn't pool in the unit
- Wide top and side entry apertures, unlike other leading brands whose restrictive side apertures mean that you can only insert hands from the top. This ergonomic design enables single height mounting and easy access for adults, children and wheelchair users.
- Anti-Bac™ casing and Anti-Bac™ seamless moulding. Anti bacterial resin is injected into all plastic and there are no seams for bacteria to gather and multiply
- Anti-Bac filter as standard (option to upgrade to a high quality ViraGuard Filters™ which not only capture pollutants and bacteria; they curb and kill its growth using silver ion technology).
- NSF approved making it appropriate for highly sensitive hygiene environments like food processing plants
- Very robust and vandal resistant
- IPX4

FREE DELIVERY: Delivered next working day if ordered before 3pm

* Brushless motors are superior to those found in most other hand dryers and carry a number of advantages including no need to maintain brushes that wear over time, greater efficiency using less energy per rotation, quieter operation and increased lifespan

^Based on £0.20 per kWh. ^^Based on average 143 paper towels per £1 spent, using 1 paper towel per dry.

Attributes:

Specifications	
Air Speed	237 MPH
Certifications and Awards	NSF Approved, ETL listed
Colour	Black
Cover	Polypropylene ABS (injected with antibacterial resin)

Specifications	
Dimensions	H670 x W300 x D219 mm
Dries Possible Per £1 Spent On Electricity (£0.20 per kWh)	2272
Dry Speed	10 to 15 Seconds
Electrical Requirement	220 - 240 V; 50/60 Hz
Energy Efficiency (per dry)	< 2 watt/hours
Expected Motor Life	5,000 Hours
Finishes Available	White; White (unheated); Silver; Black
Guarantee	8 years
IP Rating	IPX4
Motor Type	Brushless Motor
Power	0.55kW to 1.24kW
Sound Level	Low Noise
Traffic (Uses Per Day)	High use (301+)
Weight	11Kg
