Introducing the future of hand drying excellence. The unrivalled BulletDri Hand Dryer delivers on every promise; encompassing all your needs in one exceptional package. Searching for the ultimate hand dryer ends here, it's the perfect fusion of speed, sustainability, and sophistication. It's not just fast; it's truly exceptional, standing among the fastest drying hand dryers in the world. We understand the demands of washroom environments and this hand dryer is meticulously crafted to withstand the rigors of daily use, providing you with a dependable solution that won't falter. From lightning-fast drying to low noise operation, it ticks all the boxes discerning users look for.

Part of Dryflow's World first range of Certified Carbon Neutral hand dryers** - Sustainability Redefined: Embrace a greener future with the BulletDri. As part of Dryflow's Certified Carbon Neutral hand dryer range, you're not only choosing superior technology but also making a tangible impact in the fight against climate change. The choice is clear – a sustainable way to dry that's good for you and the planet.

Motor options for every need: Tailor your experience with the choice of our standard motor for reliable, long-lasting usage in small to medium spaces, or elevate your expectations with the optional brushless motor*. The brushless motor not only extends the product's lifespan by fivefold but also meets the demands of dynamic environments like airports and high-use venues. Choose the motor option that suits your needs.

Guarantee:

We stand by the BulletDri's exceptional quality, your investment is secured for years to come.

- Standard Motor (BulletDri) : 5 Years

* Brushless motors are superior to those found in most other hand dryers and carry a number of advantages including no need to maintain brushes that wear over time, greater efficiency using less energy per rotation, quieter

operation and increased lifespan

**The World's First
Carbon Neutral
Hand Dryer Range**

**Carbon neutral
Product**
ClimatePartner.com/16672-2202-1001

** Verified by ClimatePartner, certain Dryflow hand dryers have been analysed to measure their lifetime's emissions, from 'cradle to grave' (Product Carbon Footprint).

Any unavoidable CO2 that is created is offset through Dryflow reducing their

own CO2 emissions and contributing to recognisable climate-friendly projects.

As stated by ClimatePartner, anyone who buys carbon neutral products is making a concrete contribution to fighting global warming and this is an easy way to take climate action with a considered purchasing decision.

^Based on £0.20 per kWh. ^^Based on average 143 paper towels per £1 spent, using 1 paper towel per dry.
