Rental

Gives you 80% more energy efficiency than a traditional warm-air hand dryer. A best seller with fast drying - a bladed air outlet strips water from the hands. The modern, attractive cover surrounds a robust, well-built construction.

Part of Dryflow's World first range of Certified Carbon Neutral hand

dryers* - you're making immediate carbon savings, a concrete contribution to fighting global warming, and will continue to do so compared to less sustainable ways of hand drying

HDUK expert opinion: "Elegant in appearance yet one of the most vandal resistant and robust available, this low noise, high performing unit is a very popular energy efficient model. Installation is also hassle free."

Ideal for these locations or similar:

- Small to medium sized offices; Schools(Primary and Secondary); Pubs / Bars; Hotels; Restaurants; Limited space washrooms

Product features

- Available in a Black or Brushed Satin finish (Stainless Steel cover)

- Blade-style air outlet gives fast drying
- 3000 dries possible per £1 spent on electricity^ compared to 143 dries per £1 spent on paper towels^^
- Low noise output
- HEPA filter: Collects up to 99% bacteria and particles from the air before it is blown onto the hands improving air cleanliness.
- On/Off heater switch for extra cost savings.
- Depth of just 100mm
- Robust and vandal resistant - stainless steel back plate with the cover secured by 4 security screws
- IPX1

FREE DELIVERY: Delivered next working day if ordered before 3pm

A circular diagram illustrating the carbon neutral cycle. It features a central circle labeled 'carbon neutral'. Surrounding this are four segments: the top segment shows a factory icon with '+CO₂' above it; the right segment shows a wind turbine icon with '-CO₂' below it; the bottom segment shows a leaf icon with '-CO₂' below it; and the left segment shows a factory icon with '+CO₂' above it.

The World's First Carbon Neutral Hand Dryer Range

* **Verified by ClimatePartner**, certain Dryflow hand dryers have been analysed to measure their lifetime's emissions, from 'cradle to grave' (Product Carbon Footprint).

Any unavoidable CO2 that is created is offset through Dryflow reducing their own CO2 emissions and contributing to recognisable climate-friendly projects.

As stated by ClimatePartner, anyone who buys carbon neutral products is making a concrete contribution to fighting global warming and this is an easy way to take climate action with a considered purchasing decision.

^Based on £0.20 per kWh. ^^Based on average 143 paper towels per £1 spent, using 1 paper towel per dry.

Attributes:

Specifications
